【資料？ Data ？】

各位數位原住民

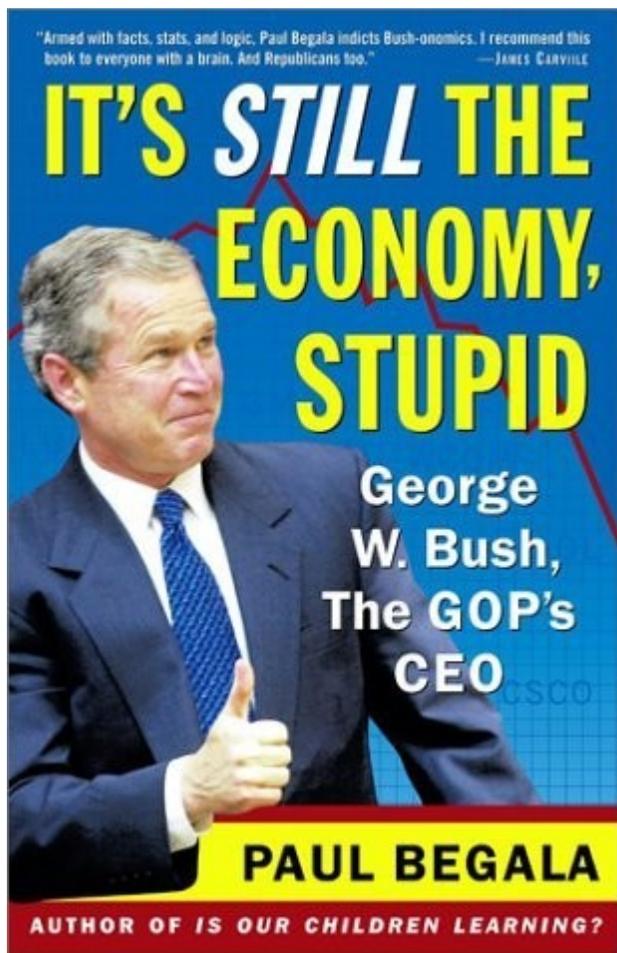

請不要忽視資料的重要性

資料會是下個世紀的黑金

淘金前，先知道資料在哪

接著學習用哪種工具採礦

誰掌握了你的資料，就有機會掌握你的荷包

「笨蛋！重點在經濟」

(**"It's the economy, stupid"**)

卡維爾 (**James Carville**) 自創這句標語，
促使柯林頓當上美國第 **42** 屆總統。

- **1992** 年

「笨蛋！重點還是在經濟」

(**"It's STILL the economy, stupid"**)

卻讓小布希嘲笑是幼稚的總統。

- **2002** 年

雲端時代，○○會說：「笨蛋！重點在資料」

(**"It's the data, stupid"**)

誰掌握了你的資料，就有機會掌握你的荷包
想想看，電腦、手機掉了，您心疼的是甚麼呢？

- **2007** 年

【問題】

如果○○○把您的信件、照片通通搞丟了，該賠償您多少錢呢？用 MB 計算嘛？

無線感測器網路 (Wireless Sensor Network)

感測器網路泛指由各式各樣不同的感測器所組成，透過網路鏈結成一大型的資訊蒐集網。

生態觀測格網 (Ecology Grid)

[Ecogrid Insight](#) | [Events](#) | [Ecosites](#) | [Ecogrid on Media](#) | [Data Query](#) |

Ecogrid project is a joint effort among National Center for High-Performance Computing (NCHC), Taiwan Ecological Research Network (TERN) and Taiwan Forestry Research Institute (TFRI).

Using state-of-the-art grid technology, scientists at NCHC established a cyberinfrastructure for ecological research, the Ecogrid, which integrates geographically distributed sensors, computing power, and storage resources into a uniform and secure platform. Ecologists can conduct researches on this platform, including data acquisition, data analysis, and data sharing. The real time intervention capability of the Ecogrid system allows researchers to carry out interactive/control experiments that have been impossible until now.

Global Lake Observatories Network

With the support from PRAGMA, Ecogrid is now extended to international. By the cooperation with scientists from Center for Limnology of University of Wisconsin, San Diego Supercomputing Center (SDSC), and Center for Biodiversity of Academia Sinica, we deployed a lake observatories network connected LTER Trout Lake station in Wisconsin and TERN Yuan Yang Lake Station in Taiwan in April 2004. Through the ubiquitous web interface, scientists can easily access and compare data from both research stations in near real-time. The pioneer network was used as an example to call for broader partnership when scientists gathered at Scripps Institute of Oceanography in March, 2005 to discuss next move upon the global network.

Underwater Reef Monitoring

Coral reefs are precious because they are the most biologically diverse and productive marine ecosystems on earth. In addition, revenue from tourists attracted to the beauty of coral reefs can be a significant source of income for human communities in these areas. Because of the important ecological and economic roles coral reef communities fulfill, resources are pulling in to study the stresses and dangers to the reefs.

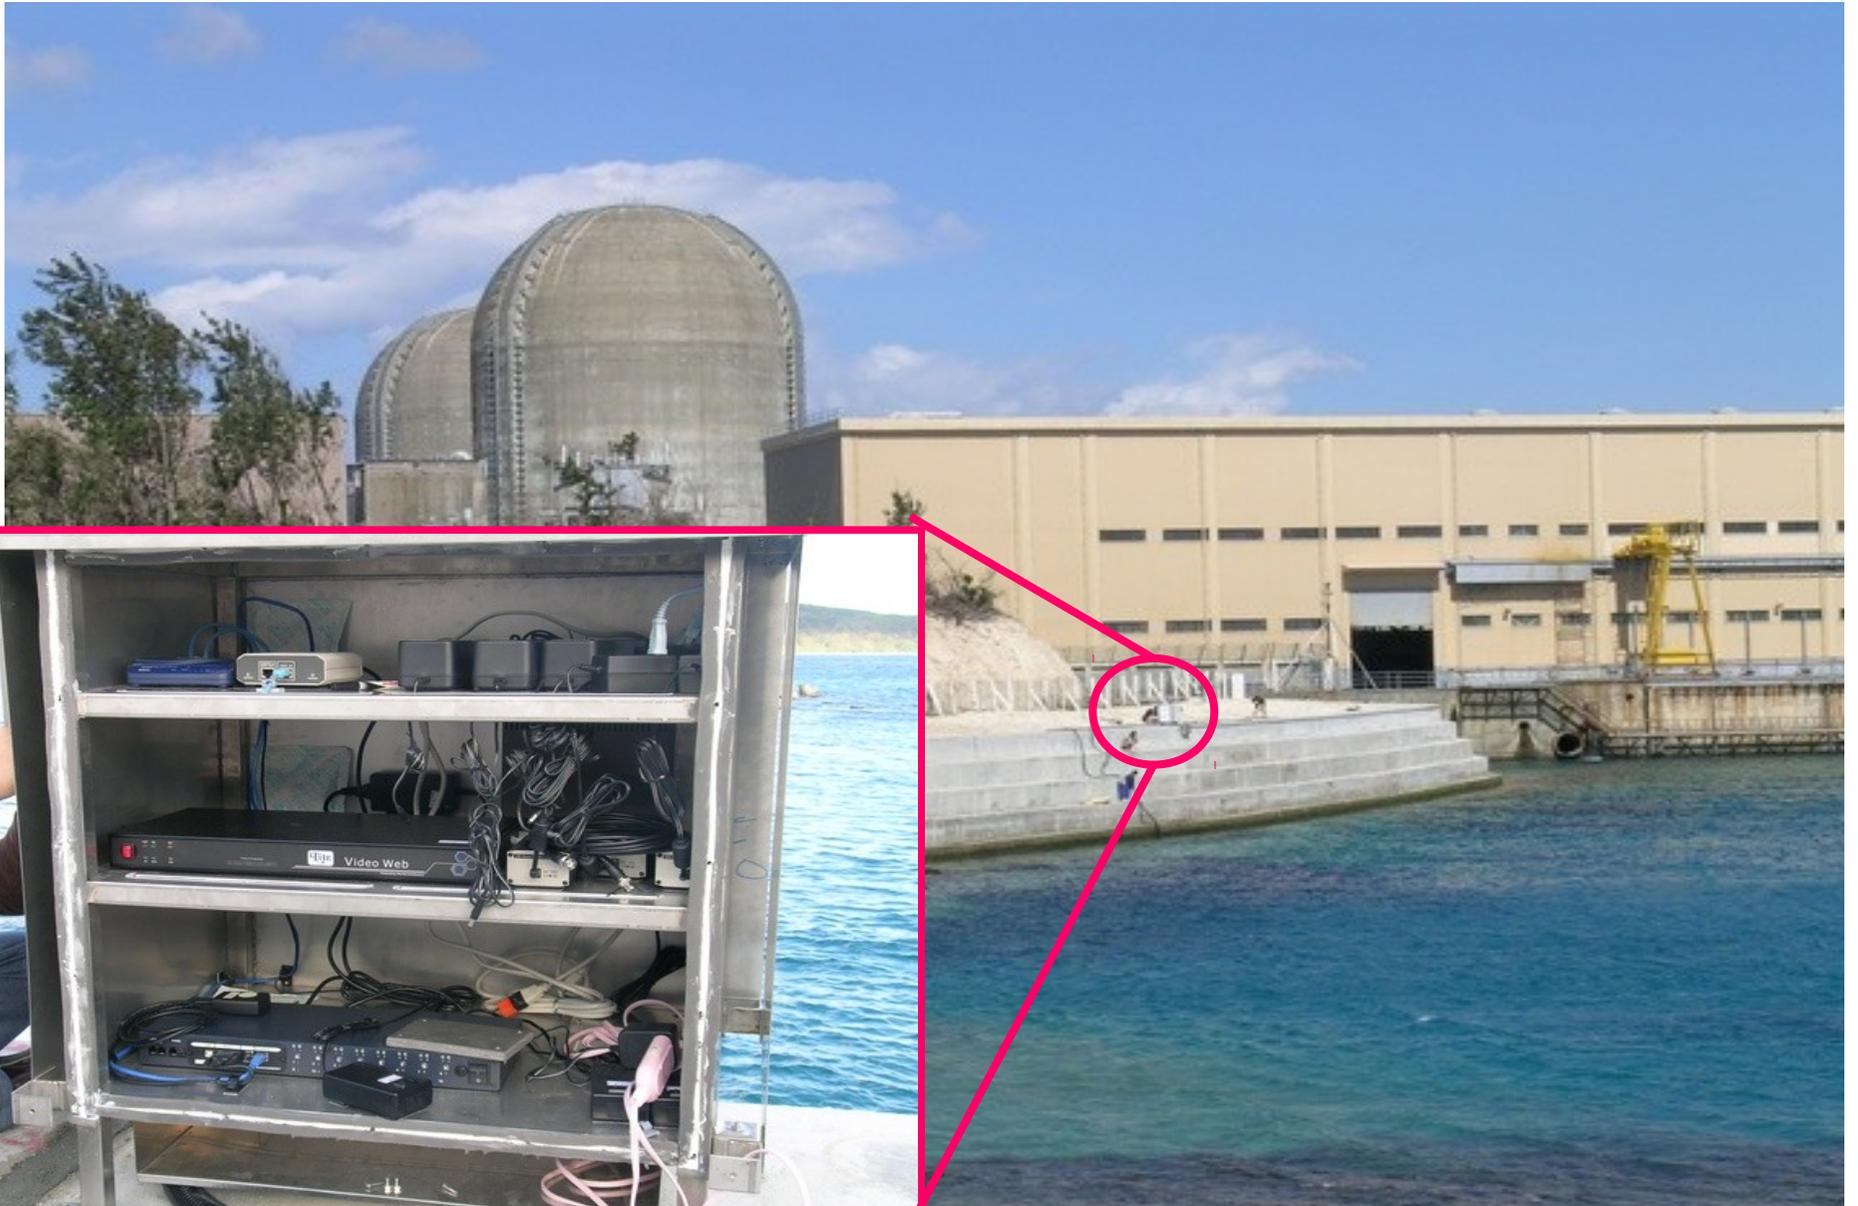

With the funding from Taipower, NCHC Ecogrid team worked together with Research for Biodiversity Center, Academic Sinica implemented an underwater reef monitoring system. The system composed with 9 cameras, located at 3 sites, lively streaming bioactivities undergoing in reef communities to marine scientists' desktop.

Wifi體重計：透過網路管理你的體重

無敵小恩恩 發表於 2009年10月05日 13:54 | [收藏此文](#)

網路入侵到家電用品只是時間的問題，現在體重計也有內建無線網路，透過網路能將你每天量的體重都紀錄下來，不用筆記也能做好更準確的體重管理。有了這麼方便的上網體重計，這下沒有藉口懶得管理你的體重了。 懶人減肥專用機

不只是記錄體重，這台體重計還能算出你的BMI，不但能將資料傳到網站上去，也能透過Wifi傳到iPhone上，經過每天的測量之後，能在網路上看到曲線圖，進而管理你的體重，如果上升的太快就表示最近吃太多動太少，對於懶得記錄自己體重的人來說，這是一台不錯的監督機器，而一台要價159美金，約5000元新台幣，並不便宜，昂貴的價格要普及化還是有一段很長的時間，而且台灣也沒販賣，要買到也不容易。

用地理資訊服務學習一個城市的歷史

The screenshot displays the hypercities website interface. At the top, a timeline slider ranges from 1700 to 2100. Below it, a satellite map of Tokyo is shown, with a historical map overlaid. The historical map is titled "RESTRICTED" and shows the city's layout in 1880. The interface includes a search bar, a "WORLD" button, and a "LOGIN" button. A sidebar on the right lists various historical maps and collections, including "1880 Rittau", "1900 Map of Tokyo (1900)", "1922 Map of Tokyo (1922)", "1930 Map of Tokyo (1930)", "1944 Japan Railroads", and "1944 Japan Roads And Water". The bottom of the interface features the "hypercities" logo and the text "Imagery ©2012 TerraMetrics - 使用條款".

Siri understands what you say, knows what you mean, and even talks back. Siri is so easy to use and does so much, you'll keep finding more and more ways to use it.

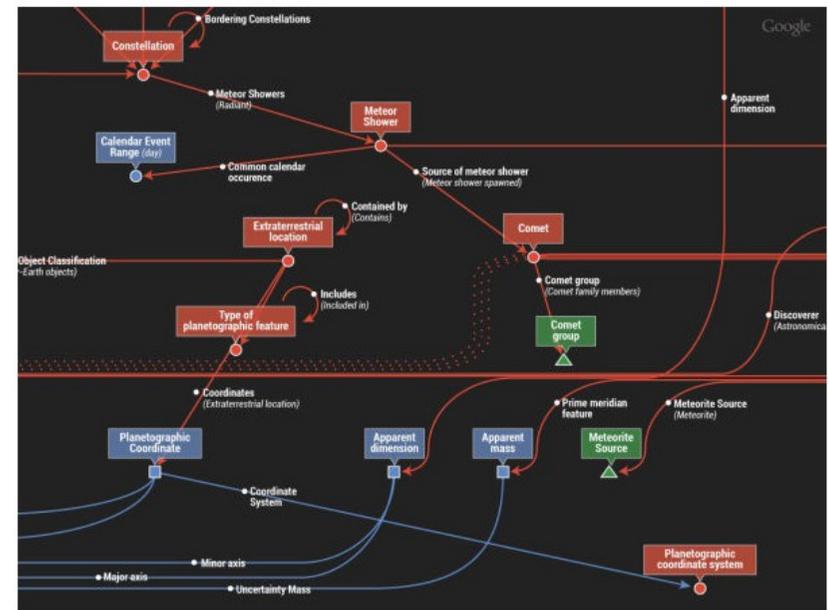

Google將發展「人工智慧」 永久改變搜尋引擎

2012年02月15日 00:11

點評：超級阿斯拉，衝啊！（阿斯拉：好的，準人！）

記者黃郁棋 / 綜合報導

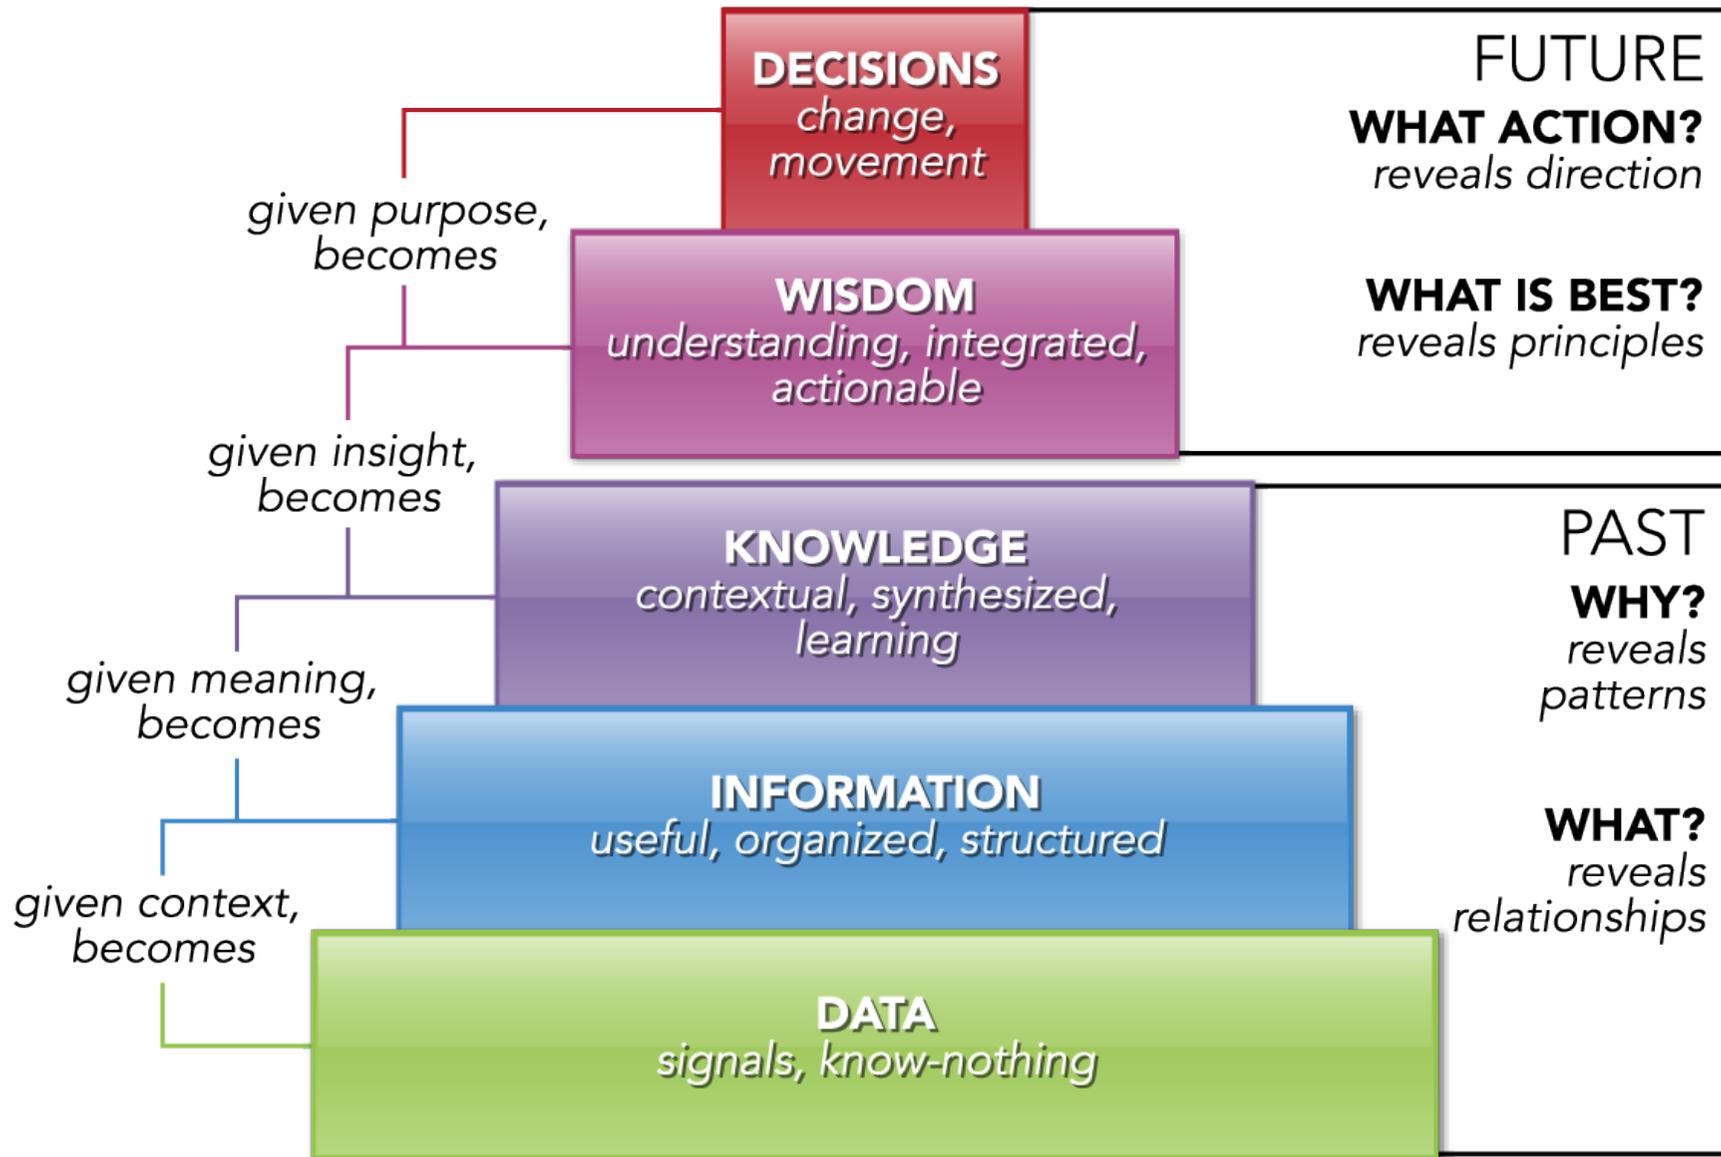

每個人都再猜，下一波網路革命是什麼？每個人都再猜，未來的世界會如何運作？Google的資深副總Amit Singhai透露了一點訊息。「Google正努力從『單字』層面進展到『意義』層面，未來搜尋引擎提供的不只是關鍵字搜尋，搜尋引擎甚至會『明白』你到底要什麼。」

▲ Google未來將會朝「人工智慧」前進。(圖 / 取自mashable.com)

Knowledge is from the Past, Wisdom aim for Future

知識源自於過去，智慧在能預測未來

What is Big Data?! 何謂『海量資料』？

海量資料泛指資料大小已無法用一般軟體擷取、管理與處理；
單一資料集大小介於數十 TB 至數 PB 的資料。

'Big Data' = few dozen TeraBytes to PetaBytes in single data set.

Definition

[edit]

Big data is a term applied to data sets whose size is beyond the ability of commonly used software tools to capture, manage, and process the data within a tolerable elapsed time. Big data sizes are a constantly moving target currently ranging from a few dozen terabytes to many petabytes of data in a single data set.

In a 2001 research report^[14] and related conference presentations, then META Group (now Gartner) analyst, Doug Laney, defined data growth challenges (and opportunities) as being three-dimensional, i.e. increasing volume (amount of data), velocity (speed of data in/out), and variety (range of data types, sources). Gartner continues to use this model for describing big data.^[15]

Hadoop related Facebook Group in Taiwan

Hadoop.TW

<https://www.facebook.com/groups/hadoop.tw>

The screenshot shows the Facebook group page for 'Taiwan Hadoop User Group'. The page header includes the group name and navigation icons. The main content area features a post by Jazz Yao-Tsung Wang, dated 2013/03/22, with 533 members (9 new). The post text reads: '這幾天花了一些時間研究 Facebook Graph API, 想要了解國內 Hadoop 相關社群的關聯性。目前的狀態如附圖。' Below the text is a network diagram showing connections between various groups, with 'Hadoop.TW' highlighted in the center. The left sidebar lists navigation options like News Feed, Messages, and Events, as well as a list of pages and groups. The right sidebar shows the number of members and a 'People You May Know' section featuring Steven Chin.

Hadoop related Facebook Group in Taiwan

Hadoop in Taiwan

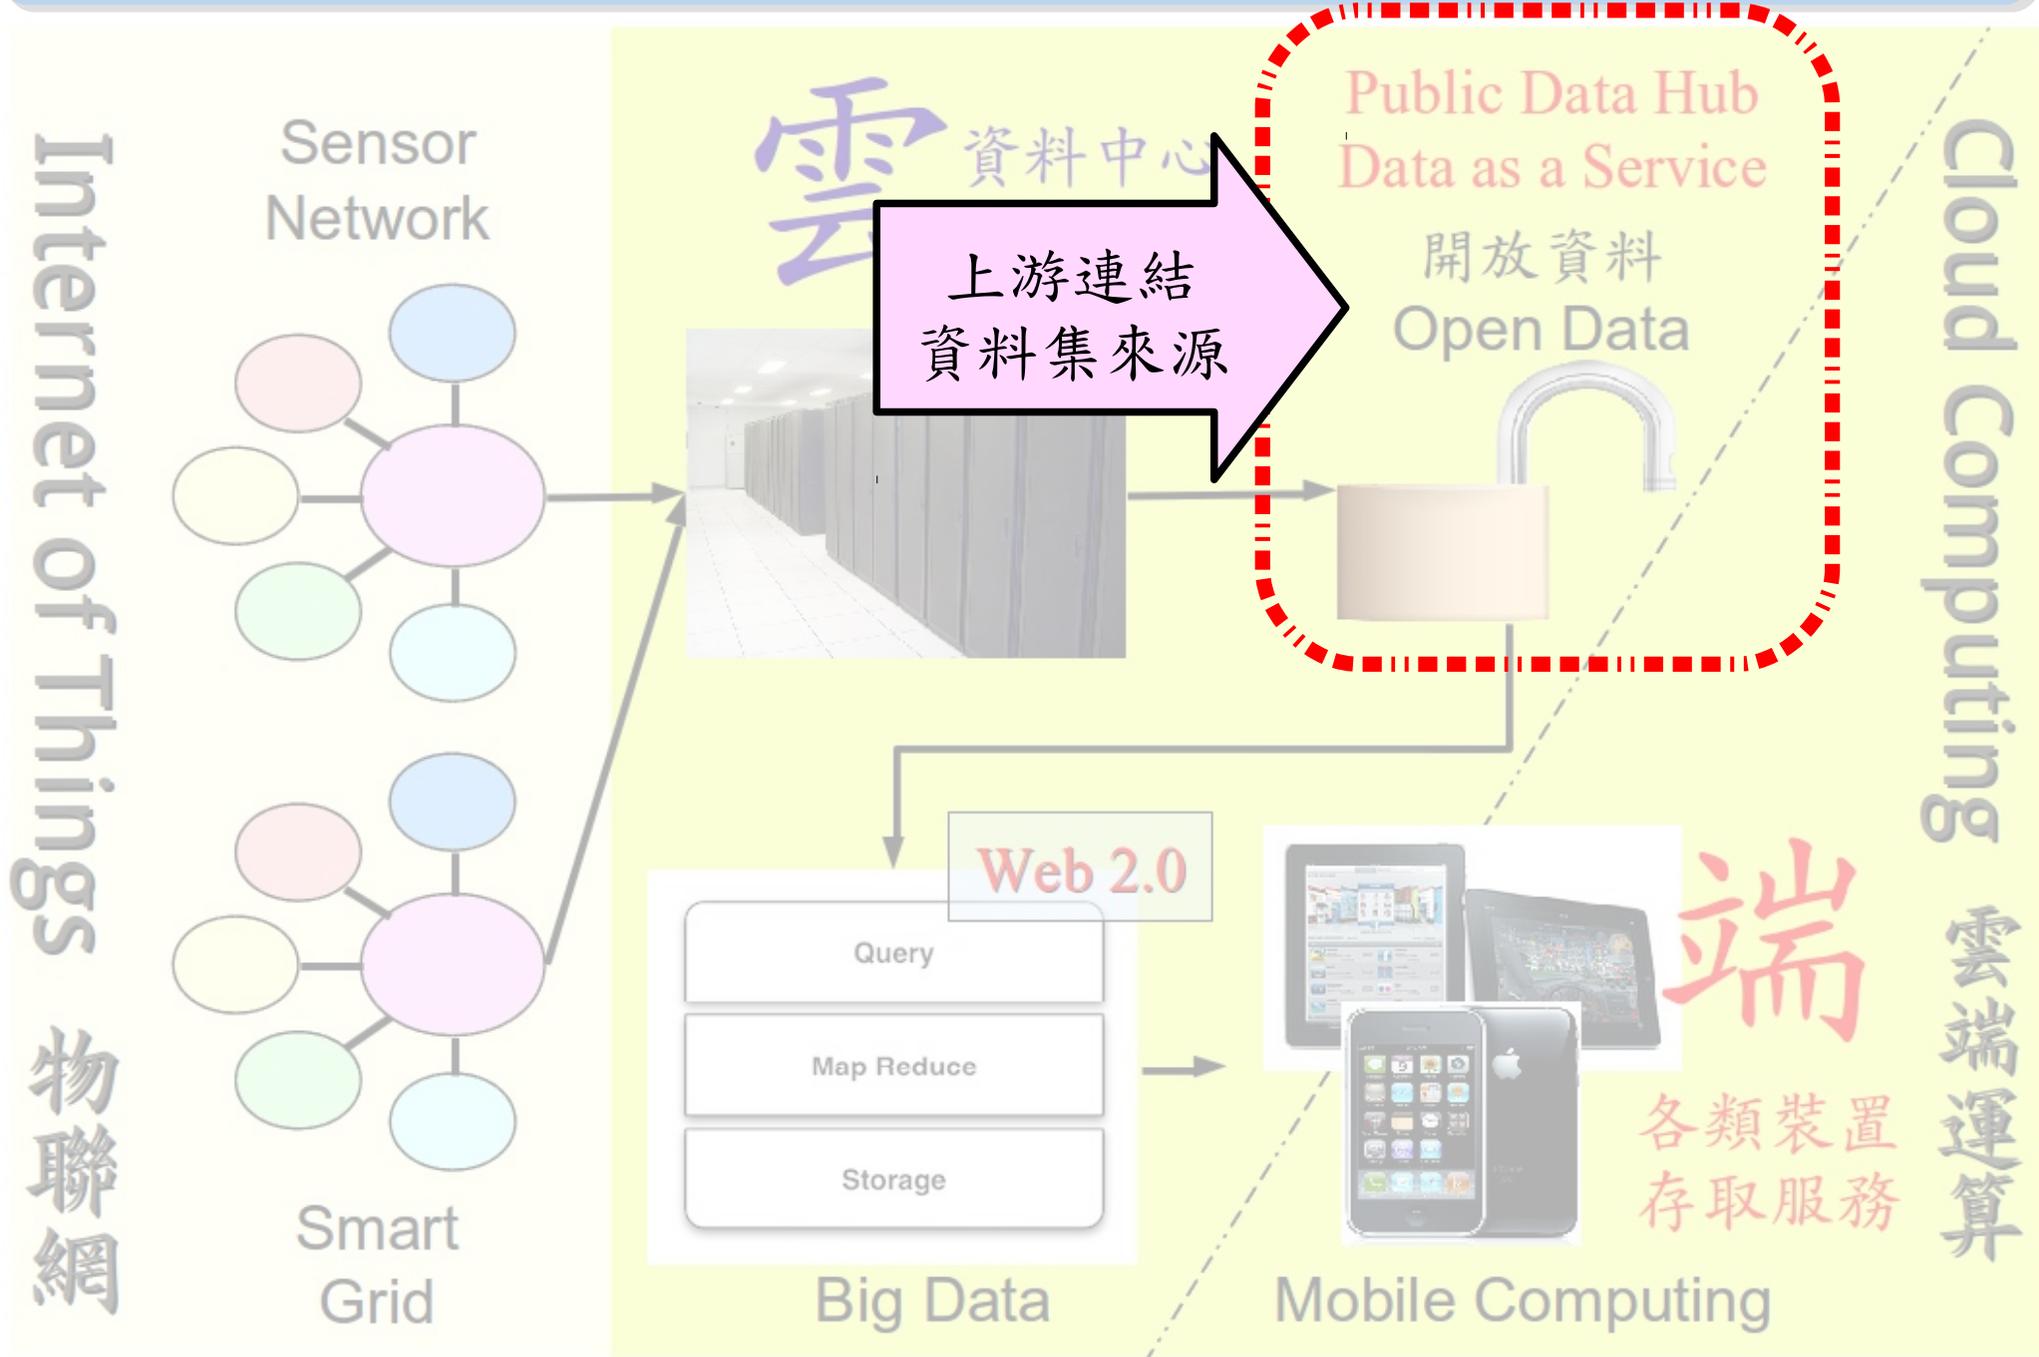

<https://www.facebook.com/groups/hadoopintaiwan/>

The screenshot shows the Facebook group page for 'Hadoop in Taiwan'. The page header includes the group name, navigation tabs (About, Events, Photos, Files), and a notification bell. Below the header is a row of profile pictures of group members. The main content area features a 'Write Post' section with a text input field and buttons for 'Add Photo / Video', 'Ask Question', and 'Add File'. To the right, it displays '59 members (2 new) · Invite by Email' and a '+ Add People to Group' button. The 'RECENT POSTS' section shows a post by Jazz Yao-Tsung Wang, dated 2013/03/22, with the text: '有鑑於今年 Big Data 熱潮持續發酵，Hadoop 社群逐漸茁壯，首先感謝去年趨勢科技的 Rice, 昆錡, Chris Huang 等建議與支持，今年開始舉辦每季一次的 Hadoop 生態系工作坊。其次要特別感謝 Etu 團隊 Fred Chiang 大的鼓勵跟建議，社群必須要開始讓更多人可以擁有強烈的參與感跟使命感。所以在此開始徵求以下工作小組： (1) Hadoop 生態系工作坊的報到引導小組 x 2 名 (我們先邀集 3/10 可以幫忙的)'. The left sidebar contains navigation options for Favorites (News Feed, Messages, Events, Photos, Browse), Ads (Ads Manager), Pages (Hadoop in Taiwan 2012, Pages Feed, Like Pages), and Groups (JavaScript.tw, Taiwan Hadoop User Gr..., S4A).

Open Data Taiwan Facebook Group

OpenData / Taiwan (ODTWN)

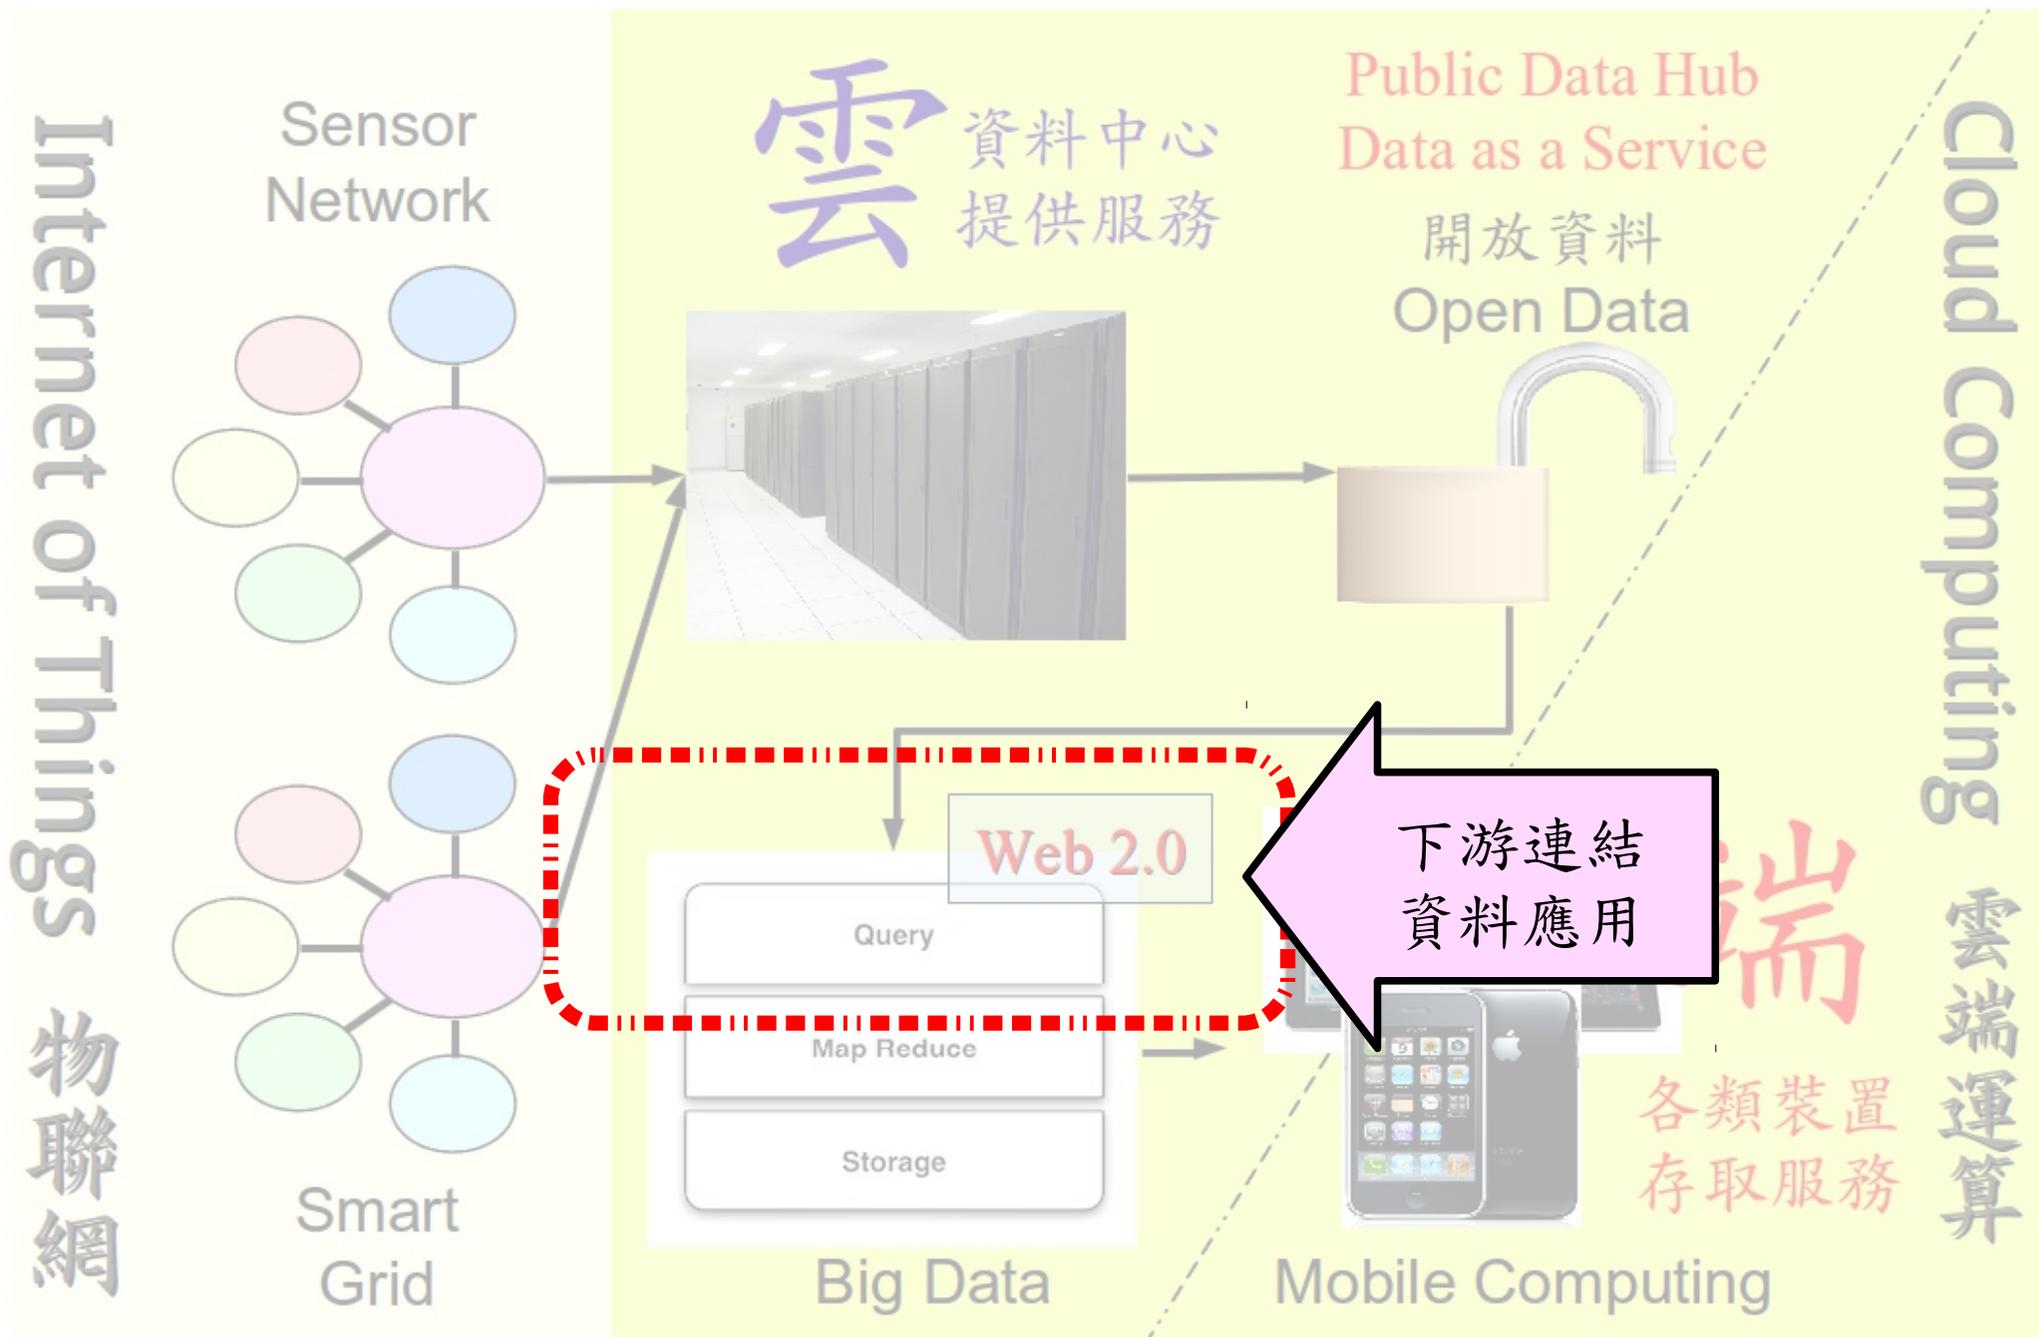

<https://www.facebook.com/groups/odtwn/>

The screenshot displays the Facebook group interface for 'OpenData / Taiwan'. The top navigation bar includes the Facebook logo, the group name, and utility icons for profile, messages, globe, and user avatars. The left sidebar lists navigation options: FAVORITES (News Feed, Messages, Events, Photos, Browse) and ADS (Ads Manager). The main content area features a cover image with a network diagram of data icons and text in French: 'PUBLIER SUR UNE PLATEFORME OUVERTE' and 'STATISTIQUES CARTOGRAPHIQUES HORAIRES DONNEES EC'. Below the cover is a navigation menu with 'About', 'Events', 'Photos', and 'Files'. The group's name 'OpenData / Taiwan' is followed by 'About', 'Events', 'Photos', 'Files', 'Notifications', and a search icon. The post creation area includes 'Write Post', 'Add Photo / Video', 'Ask Question', and 'Add File'. The group statistics show '170 members (7 new) · Invite by Email' and a '+ Add People to Group' button. The 'PINNED POSTS' section shows a post by user '樂樂' with the title 'Open Data 產業新地機系列論壇(第三場)'.

余家豪

請問各位前輩們,我現在自己寫了一個bulkload的程式碼,在設定keyvalue裡頭的timestamp值用System.currentTimeMillis()發現精細度似乎不夠導致重複,若兩筆資料之row key,cf:q跟ts都一樣時,則前面那筆value會被覆蓋導致某些數據get不到,想問問各位前輩們的timestamp值都是如何設計的呢?
